February 4, 2010

Dear Customer,

When we announced that we were relocating our St. Catharines branch, many customers advised us they wanted to continue buying locally from Bolt and Nut Supply Ltd. So we are extremely pleased to announce that we have partnered with Commercial Auto Electric at 135 Cushman (next door to our current facility) to maintain our service in the area.

This partnership allows Commercial Auto Electric (under the name of Bolt and Nut Supply Ltd) to inventory and sell our complete product line in St. Catharines and the surrounding area. They will have the full support, knowledge and training of Bolt and Nut Supply, along with access to our full inventory and buying power. We are extremely pleased that we, along with Commercial Auto Electric, were able to put this joint venture in place on such short notice.

To this end we will be keeping our Cushman location open until Thursday February 11th (last day), to ensure a smooth transition. On Tuesday 16th February, customers will be able to call/fax the same numbers, or just visit 135 Cushman (next door to our current location) to experience the same good service they have come to expect. All customer account information will be transferred to ensure you the same rights and privileges which you have had with Bolt and Nut Supply Ltd. If you previously had an account with Bolt and Nut Supply, you will have the same account with Commercial Auto Electric/Bolt and Nut Supply Ltd. Their hours of operation are 7.30am – 5.30pm Monday – Friday, 8.00am – 12.00pm on a Saturday. Customers who currently deal with Cambridge can continue to do so, and if you normally pick up your orders at the St. Catharines location you will be able to pick them up at Commercial Auto Electric.

Bolt and Nut Supply Ltd., is extremely pleased to be able to make this announcement, and are looking forward to a long and prosperous relationship with Commercial Auto Electric/Bolt & Nut Supply Ltd.

Regards,

Maureen Boyce
Bolt and Nut Supply Ltd.

&

Dennis Giancola
